

2023 MI Forum Hospitality

Distinguished Thai guests were warmly welcomed to the Third International MI Education Forum (held between 12th to 18th of December) with a welcoming dinner at the Harbour Plaza Metropolis on the 14th of December 2023. Our guest had a little taste of the Pearl of the Orient where they were exposed to the AI Lab at The Chinese University of Hong Kong as well as experiencing Cantonese opera at Ko Shan Theatre New Wing. Guests were given a breathtaking tour of our science labs, bearing witness to how our teachers nurtured the brilliant scientific minds of the gifted and talented at GTC. Leaving our guests beaming with vibrant and cheerful smiles as they left Hong Kong. Bon voyage and adieu until our paths cross at the next MI forum voyage.

The Singing Contest is one of the regular activities that is usually held in late November-December, for the aim of schoolmates having a chance to perform. The Semi-Finals were held on 29 November, whereas the Finals were held on 22 December. All participants emerged with high level performances. Our audiences found the whole atmosphere enjoyable.

There were 15 groups of participants promoting to the finals with 12 teacher-student group performances and 4 shows from each of the graduates' classes. All the audiences were excited throughout the contest. Our schoolmates, teachers and alumni all had a great time.

This Singing Contest was concluded as a successful one by having Rainbow Yu from 11B as our champion. Congratulations to the winner and we would like to thank our judges: Dr. Ken Cheng, Mr. Thomson Ng, Ms. Queenie Liu and Ms. Vanessa Gadzieva for their support.

In the summer of 2023 on the 23rd of August, we had the pleasure of welcoming Dr. Chotima Nooprick, Office of Basic Education Commission, MOE Thailand, and her colleagues to GTC. They came in search of three targets: Mr. Alex O, inspired by his leadership in the advanced developments of robotics; Ms. Alice Chan's well-conducted and engaging chemistry experiments; and Dr. Vincent Tam, who showcased his well-equipped biology lab. They were deeply captivated and absorbed by Mr. Leo Tsui and Dr. Clara Cheng's presentation of the school's ethos of love, creativity, and task commitment. This ethos was embedded into the unique curriculum, which included Clubs and Interest Groups, Talent Classes, Accelerated Classes and the student favourite, Sports Friday. We sincerely welcome Dr. Chotima Nooprick to provide her insightfulness into our special curriculum.
