

2021 Happy New Year

To teach the MI learners and to teach them well? To the GT Reading Club!

A group photo of the GT "Reading Club" (From left to right: Professor Rex Li, Ms. Holy Yoong, Mr. Billy Lee, Dr. June Luo, Dr. Clara Cheng, Dr. Karen Lee, Dr. Richard Cheung and Mr. Paul Lip)

With the role-modelling of our reader-author-curriculum director, Professor Rex Li, our colleagues have become Gardner's faithful readers and his ardent supporters in the frontline as well as in the GT conferencing room for experimenting and narrowing the gap between the MI theory and its application in the classroom—the real-time “playground” of a most crucial education issue, learning diversity, in all MI or gifted schools.

The GT Reading Club has been running its monthly reading meet; the sharing and discussion have been incredibly active, assorted, and even atypical. Here we are putting the accent on questioning, exploring, and applying. Here we are brainstorming to understand what lies deep in the intellects of the MI kids. Here we are taking a piece of cake to muse on the appropriate curriculum and instruction for our wizards—the highly able students (in their own areas of strength).

Readers, whoever you are, you're most welcome to join us! We meet on the last good Friday of the month. Stay tuned.

Enjoying a balanced university life!

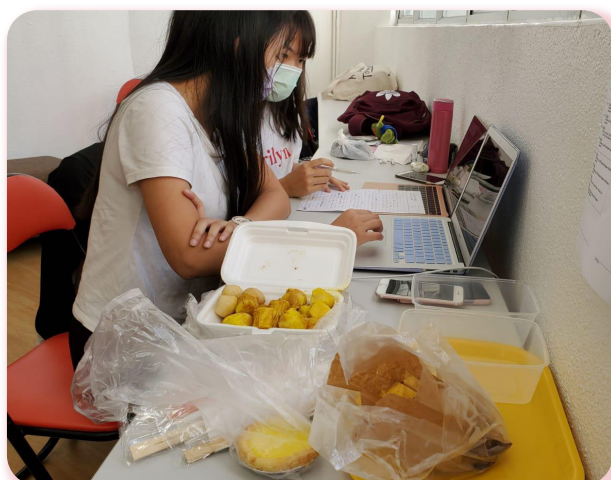

Having received an offer from CUHK, she is now pursuing Bachelor's degrees in medicine and surgery

Similar to others, pursuing my studies was what I considered important during my secondary school years. While some students can put all their effort into revising and be the 'hard-working high achiever', I definitely don't belong to that category. To diversify my learning experience at GT College, I joined the school handball team and also other sports teams. My teammates and I had regular practices weekly after school, where our teamwork and specific drills were trained. It wasn't easy, but I had a great time with my teammates after each training session. The most rewarding part would be to compete against other teams with my teammates after extra hours of practice, and how our team spirit empowered us throughout the matches. Being part of the sports team in my secondary school journey not only allowed me to be friends with such supportive teammates but also helped me to achieve my study-life balance, hence motivating me to achieve better academically.

Rits Super Global Forum 2020-Wired Event

Our students actively sharing about Hong Kong local snacks

This year Ritsumeikan High School organized the "Rits Super Global Forum 2020 Online (RSGF 2020 Online)" with the purpose of tackling global issues through discussions, collaborative workshops and presentations. The main theme of this year is "What Can We Do Under the Situations of the Coronavirus?" Our students Sian Lee (10A), KiKi Chu (11B), Katy Hoi (11B) and Carol Yiu (11B) participated in this event from November 10th to 14th, 2020. During the forum, one subtopic per day was discussed, and due to time differences, there were 4 periods a day so that as many schools as possible could join either of them. Our students could not only increase their awareness of global issues through knowledge based learning but also through overseas outreach programs, broadening their horizons.

瑞士巧固球之旅

女子隊與突尼西亞隊進行比賽

女子巧固球隊於M18賽事中取得第五名

2019年12月14日，我們去了瑞士日內瓦參加瑞士巧固球比賽。雖然那是我第一年加入巧固球校隊，但也有幸中選參賽，得以從中擴闊視野。這次旅程真是獲益良多，不但欣賞到師兄師姐們和其他國家既精彩又緊張的比賽，從而觀摩球技，還能到瑞士的芝士廠、朱古力廠、古堡和奧林匹克博物館參觀，為旅程錦上添花。在此我謹多謝學校對我們的支持和鼓勵，讓我們能有一個精彩旅程，留下美好回憶。
