

Japan Super Science Fair 2020

(From left to right) Jammie Li (9D), Nicholas Wong (9D), Forrest Lo (9D), Zarine Wong (9D), and Charity Kwok (9E) greeting JSSF participants

Five G9 students participated in the Japan Super Science Fair 2020 in November 2020, which was hosted by Ritsumeikan High School through Zoom and Slack. Over 60 schools from all over the world participated in this online fair. The students were connected with one another, built up a wonderful network, and created opportunities to showcase their science projects. The scientific research project presented by G.T. students was "Lutein and Zeaxanthin for Diabetic Macular Edema". They investigated how natural carotenoids have therapeutic treatment for the patients suffering from diabetic macular edema. G.T. College was selected to host a cultural event in which Mr. Leo Tsui gave an amusing Cantonese lesson to international students. Zarine Wong (9D) received a second prize from the Science Showdown competition.

In the Closing Ceremony, Forrest Lo (9D) was selected to be one of the three representatives to give a speech because of his active and constructive participation. We may see his speech from video 1. All participants sang the song "We Are The World", bringing the enlightening science fair to a close. We may enjoy their performance in video 2. I believe our students have created wonderful memories through their participation in the Japan Super Science Fair.

Dr. Molly Chan
Head of STEM

Po Leung Kuk “Build Your Career” Flea Market 2019-2020

The “Build your career” flea market organised by the Po Leung Kuk was held from 27th to 29th November 2020 in Amoy Plaza. Sixteen G11 students in three teams took part in the event. They managed to design, produce and sell their products in the flea market by themselves. Fortunately, all teams broke even and earned profits! We appreciate their efforts and commitment made in the whole program, and believe the experience has broadened their horizons.

Mr. Karl Yeung
Economics Teacher

The Iridescence selling customised notebooks

Students’ Comments

We got a lot out of this activity, including communication skills, team spirit and also marketing skills. After operating this fair by ourselves, we became more courageous and confident as we had to sell our products to the customers. We found out that being an entrepreneur is not as easy as we thought, as we will need to come up with the design, manage the manufacturing and finalize the sale of products. We have learnt more about entrepreneurship and benefited from the event. Last but not least, we sincerely thank the teachers who helped us a lot during the whole process.

Give Me Five

CEO : Ronald Yip (11A)

Members : Anson Lau (11B), Brayden Fan (11C),
Abel Fong (11D), Ahad Qazi (11D)

Despite the lucrative nature of our business project, I think the non-monetary gains from our experience far outweigh the value of our monetary profits. Throughout the months of preparation for the market, we have learnt numerous business concepts, for example, the importance of knowing what consumers demand, strategies for making our products more appealing to the general public, and the precise calculation of costs, revenues and profits. Besides, through interacting with consumers and presenting our products, we have developed valuable communication skills and also made some new friends in the market. Last but not least, we had a lot of fun and it surely was an unforgettable experience!

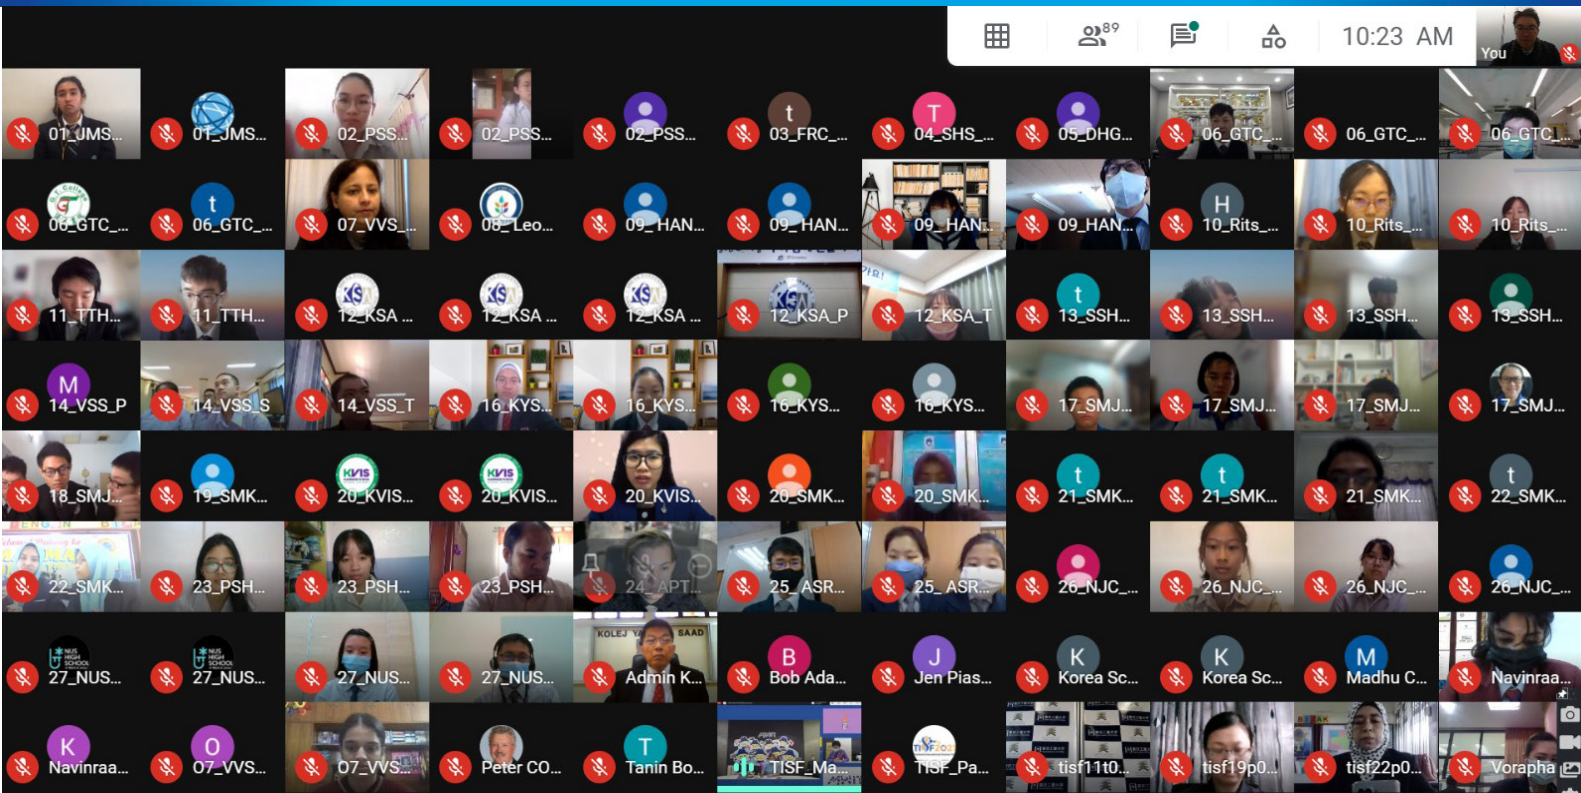

Iridescence

Thailand International Science Fair 2021

University professors and school teachers discussing in Google Meet sessions

The event was held on January 6-8, 2021 at Mahidol Wittayanusorn School, Thailand with the theme “Strengthening sustainability and resilient society through science and technology”. 50 schools from different countries participated in the event.

Due to the world-wide pandemic, the event was held in both physical and online modes. Three of our students participated in the event, guided by Principal Tam and our teachers.

Our students worked on a project called "Physics of Badminton Motion" and its Fun and presented on different occasions during the event. The sharing was very interactive and fruitful with teachers’ and students’ active participation. Principal Tam also participated in the Principal’s Panel Discussion to share how schools cope with the dynamic situations during the pandemic.

The event ended with a closing ceremony with cultural performances from different participating schools, enlightening our students' school life amid the pandemic.

創意貼圖顯心思，網絡安全您要知

本校於去年年底參與了由生產力促進局舉辦的「安全使用流動裝置」貼圖設計比賽，比賽旨在喚起公眾對流動裝置安全性的意識，並鼓勵公眾小心使用流動裝置。同學們都絞盡腦汁、發揮創意，創作出他們獨一無二的精美貼圖。最終本校勇奪「最積極參與獎」，而梁芷穎(5A)、胡芷澄(5A)和倪子淇(5C)同時獲確認列入入圍作品，入選優秀作品之列，實屬難得。

此外，本校亦同時舉辦校內貼圖設計比賽，借此鼓勵同學在疫情期間，發揮無限想像力，期望學生加強對身邊事物的觀察。以下為得獎名單，再次恭喜得獎同學。

視藝科及科技科
吳靖雯老師
梅家傑老師

獎項	學生
冠軍	倪子淇(5C)
亞軍	梁芷穎(5A)
季軍	霍美瑾(5C)
優異獎	胡芷澄(5A) 吳祉盈(5C) 雷子進(5D)

▲ 冠軍 倪子淇(5C)

▲ 亞軍 梁芷穎(5A)

▲ 季軍 霍美瑾(5C)

螞蟻賀歲慶新春 一福到優才樂滿家

新春將至，為了給孩子及家長送上祝福，學校特別設計了以可愛勤奮小螞蟻為主題的揮春，贈送給孩子及家長，喻意孩子們都能像螞蟻一樣聰明勤奮。同學拿到福蟻揮春後都非常雀躍，並表示一定會張貼於家中，希望能與家人渡過愉快的春節。在此謹祝各位同學及家長幸福滿載、身體健康。
